VGSU163 - Gas  
36" wide cooktop

### Gas Cooktops

30" and 36" widths

Designed to fit most existing cutouts, Viking Professional Gas Cooktops offer a hassle-free kitchen upgrade with superior cooking power. These surface units strategically deliver up to **66,000 BTUs of total power**, giving you the freedom to not only cook whatever you like, but however you like.

### Electric Cooktops

30" and 36" widths

Viking Professional Electric Cooktops provide commercial power and professional performance exactly where you need it. With **QuickCook™** surface elements that reach full power in three seconds, a **triple element** to accommodate a variety of cookware sizes, and a bridge element to create one continuous cooking surface – this electric cooktop delivers the **ultimate in performance**.

### All Induction Cooktops

30" and 36" widths

With induction cooking, a magnetic field instantly transforms your cookware into the heat source – and an **extremely efficient** one, at that. **Commercial-grade technology** ensures professional power, reliability, and precision control. Viking Professional Induction Cooktops are also compatible with most high-end stainless steel, enamel, and cast-iron cookware.
